ATENÇÃO

Fabricamos qualquer modelo de Perfil Deslizante conforme a necessidade do cliente.

A tabela abaixo demonstra o desgaste do UHMW em comparação a metais e aos plásticos de engenharia mais usados na produção de peças para a indústria. No caso, quanto menor o número, maior a resistência a desgaste e abrasão.

Nossa Política de Qualidade

Temos comprometimento com a satisfação dos clientes e com os requisitos aplicáveis, oferecendo perfis e peças especiais de qualidade e confiança, através da constante busca e de investimentos em inovações tecnológicas e na capacitação profissional, respeitando as partes envolvidas e o meio ambiente.

Fale Conosco

Nosso suporte é rápido e nossos profissionais são treinados e qualificados para prestar o melhor atendimento. Sua resposta chegará, no máximo, 24 horas após o contato.
